

Priority 1 and 2 Contingency Reporting Template

Please note, this template serves as the contingency reporting template for Priority One and Two incidents only and is to be used exclusively in the unlikely event that The Child Sexual Abuse & Exploitation Industry Reporting Portal (CSEA-IRP) is unavailable.

Please DO NOT attach and send any illegal content with this document

Priority 1 - current or immediate risk to an individual: this should be selected when there is an identified real and immediate threat to a loss of life or to cause serious harm or injury, which includes serious sexual assault and rape. This also includes where a child has been identified as needing immediate safeguarding as the abuse is currently taking place or there is imminent risk of abuse.

Priority 2 - possible risk to an individual in the near future or is time-sensitive: this should be selected when safeguarding action is needed urgently but there is no immediate threat. This could be for example, where you believe that potential contact offending has taken place or you have detected content which indicates recently generated images. This also includes reports where a child has produced self-generated images or has received/sent child sexual abuse material.

Priority Three reports must be submitted through the CSEA-IRP once the portal has been restored.

This template must be completed with the same diligence and accuracy expected when submitting a report through the CSEA-IRP or via the API.

Upon completion of the below, email this template to DRB@nca.gov.uk and follow up with a call to 01925 663355 to ensure they are notified of the Priority One report. This telephone number must not be used for any other enquires or communications.

Once the CSEA-IRP has been restored, submit the full report as usual following the "How to use the CSEA-IRP" guidance where required and ensuring compliance with the [Reporting Regulations](#).
